IKM Testing AS

Unit No. PTM-02

PIPE THREADING MACHINE

Dimension	:	L: 1000 mm	W: 750 mm	H: 1200 mm
Weight	:	110 Kg		
Lifting/Transport	:	Transport standing on a pallet.		

Model	:	Ridgid 535	Ser. no:	EBE091320807
Oil reservoar	:	6,6 litre		
Pipedimensions	:	1/8” - 2” (3mm - 50mm)		
Boltdimensions	:	5/16” - 2” (8mm - 50mm)		
Drift	:	Air		
Inlet coupling	:	1” offshore clawcoupling		

Equipment/functions	:	Air lubricator, pressureregulator and water separator on air supply, footpedal, cutting steel for NPT and BSP threads. Internal reservoir of cutting oil which is used for threading and as a lubricant.
Other information	:	Only use Ridgid cutting oil Used to thread, cut and remove degrees in pipes. Must be placed under roof to prevent water polluting oil.
Built	:	2007
