

PATENTED FLANGE PROTECTION - FLANGE DOT + TAG

Type

Specification.....: FlangeDot
Flange specification.....: Flange Protection for ANSI flange
Flange Pressure class.....: 150#
IKM Part number.....: P3-FD-035-00-2-T

Dimensions

Dimension (inch).....: 1/2"
DOT diameter (Ø) (mm).....: 35

Additional information

Equipment / Functions.....: FOR BEST PRESERVATION - USE OUR PATENTED FLANGE DOT TOGETHER WITH OUR PATENTED FLANGE BUMPERS

This system produces an air tight, water tight seal that is proven to protect the critical surface areas of your pipe spools, valves, vessels, and mechanical equipment against any weather condition. It also seals the interiors of those items, preventing your corrosion inhibitors from escaping, and does not allow outside air and moisture to get inside to do unseen damage.

- Easy to install
- Light weight composite material
- Can be re-used
- Cost effective preservation
