

Technical datasheet

OTW.Vane Compressor 2,2kW

OTS ID.: 7000-166

Introduction

The vane compressor is a volumetric rotary compressor. This kind of machine operates through rotating elements, moving air volume from a low pressure area to a high pressure, compressing it.

Features

- Low noise
- Continuous operation
- No volume tank, for smaller build size

Safety features

- Adjustable pressure switch
- Temperature switch
-

Capacity & performance

Nominal air pressure	10 barg
Nominal air delivery	0,24 m ³ /min
Air connection	CEJN Quick connection
Power	230V 16A 2,2kW 50Hz
Maximum Noise level	64 dBA

Weight & dimensions

Length	720 mm
Width	360 mm
Height	480 mm
Gross Weight	43 kg
