

## Technical datasheet

OTS Hose operations

OTS ID.: 9000-003

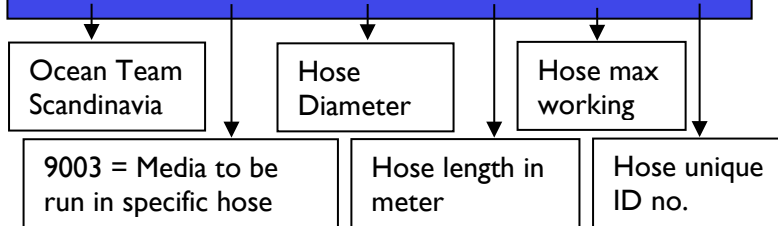

All our hoses come marked with a label as below in both ends. Covered by acrylic heat shrink.

**OTS 9003-1" x10-88-01**  
Work Pressure: 88 bar  
Test Pressure: 132 bar  
1" BSP x 10m.  
Test Date: 20/12/2018

This label can tell everything you need to know about Ocean Team Scandinavia's hoses.

**OTS 9003-1" x10-88-01**

9001	Brown	Oil
9001	Red	Oil - Pressure tested
9002	Black	Chemical - Acid
9003	Blue	Water
9004	White	Nitrogen
9005	Yellow	Utility air
9006	Green	Fresh Air
9007	Orange	Co2

### Hose specifications

Min. Hose diameter	¼"
Max. Hose diameter	2"
Min. Hose length	3 mtr
Max. Hose length	15 mtr
Min. Hose Pressure rating	50 Bar
Max. Hose Pressure rating	375 Bar
Hose connection type	60° BSP

### Safety Features

- Annual pressure test.
- Shipped in a closed loop, for prevention of spills, if any fluids should remain inside hose.

\*The performance values refer to pumps with submerged suction and free delivery outlet with water at 20°C, and vary according to the construction material
