Chemical Thermo Mix Tank "OTS.1000.LTR.SS316"

OTS ID.: 9000-405

Introduction

The 1000l. chemical mixing tank is normally used together with "OTS.Boxer251.PP.SS316" and OTS.3-2130.SS316" Chemical filter for mixing, heating and circulating chemicals in all kind of process systems, heat exchangers, coolers (Plate & tube bundles) etc.

The mixing tank is perfect to create heat through an integrated heating system, which allows water from a steam cleaner to run through this system and heat up the chemical mix indirectly, and because of the thermo effect integrated in the mix tank it will keep the chemicals warm for a longer time.

Features

- SS316 insulated mix tank.
- Forklift pockets for mobilizing.
- Hinged lids, for insulation, and safety.
- Ventilated

Safety features

- Blind hubs and valves closed for all open ends in the tank.
- Top connections for ventilation of chemical steam.

Capacity & performance

Tank capacity	1000 l.
Max temperature	100 °C
Max Pressure	Atmospheric

Weight & dimensions

Length	1950 mm
Width	1400 mm
Height	1000 mm
Gross weight	295 kg
