

Technical datasheet

Stationary oven to Pigs

OTS ID.: 9000-460

Introduction

Our heating oven is a tremendous tool for removing wax from pigs up to 24"

The oven heats the pig up to around 115 °C, and the pig is left inside the oven until the wax has come off.

The wax is collected in a tray underneath the pig.

After the wax has been removed, the pig is getting washed with our HP steam cleaner (9000-489) before the pig is getting refurbished in our workshop.

Features

- High capacity
- Tray for collecting wax
- Timer function

Safety features

- Timer function
- Tray for collecting wax

Capacity & performance

Ovens inside capacity "Width x Depth x Height"	800 x 900 x 1000 mm.
Tray capacity	150 Ltr.
Max. temperature	250 °C

Weight & dimensions

Length	1500 mm.
Width	1700 mm.
Height	2600 mm.
Gross Weight	650 Kg.
