Grease Replenish

Item number: 15628

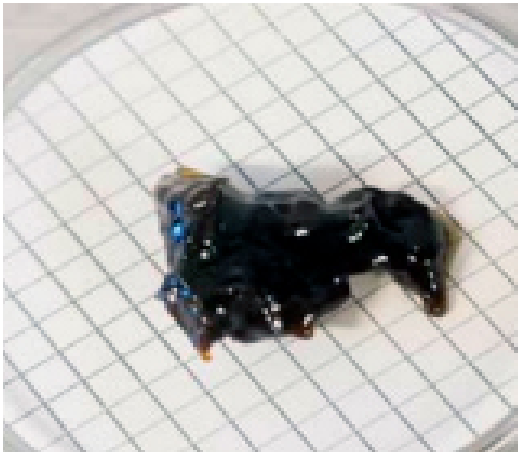

Introduction

Grease Replenish is a patented soluble that lowers the viscosity on grease.

The solution is used to remove old, hardened, and contaminated grease thoroughly before a refill of fresh grease promoting asset life.

Before Cleaning

After Cleaning

Capacity & performance

Physical state	Liquid
Odour	Not characteristic
Colour	clear
Boiling temp/range (1013 hPa)	100° C

Weight & dimensions

Flash point	No data
Density (25°)	1.14 +/- 0.05 g/cm
PH Value (25°)	6.00 +/- 1.0
Water solubility	100 Wt %
