

January 31, 2024

Dear customer/supplier

IKM Laboratorium AS changes name to Trescal Norway AS

We are happy to announce that effective February 26th, 2024, our company, IKM Laboratorium AS (org. nr 952245503), will operate under the new name, Trescal Norway AS.

In September 2022, Trescal, the international leader in calibration services, acquired IKM Laboratorium. The name change marks the completion of the transition to Trescal.

As we operate as Trescal Norway, we can provide a comprehensive single-source solution for our customers. We look forward to discussing the enhanced service offer with you. However, there are a few things we would like to point out that will remain unchanged:

- You will continue to work with the same people as you have in the past.
- The services we have provided will continue to be offered.
- All matters concerning accounting, including payments, will continue in the same manner and place as they are now. Invoice email faktura.norway@trescal.com
- We are committed to providing you with the same quality service and dedication you have come to expect from us.

We will happily discuss this development further with a meeting if required. In the meantime, please do not hesitate to call or email your usual contact if you have further questions.

We look forward to a precise collaboration in the years to come!

Karianne Birkestøl Eiken
General Manager
