

HYDRAULIC TORQUE WRENCH - HYDRATIGHT SWEENEY

Dimensions

Type

Model...... Power Head RSL30 (to be connected to Torque wrench 30)

Qty. available in stock...... 4

Flow / Pressure / Volume

Connections

Inlet connection...... Twin hose

Additional information

Equipment / Functions...... Dimensions (LxWxH) are for complete tool (Power Head and Square drive)

Safe

• Innovative design that completely encloses all moving parts and eliminates pinch points

Fas

- 30 35 degrees of operating stroke provides added productivity while avoiding "tool lock on" which is common with some torque wrench designs Versatile
- Interchangeable head design
- · Power head / square drive combination for flexible use with standard impact quality sockets
- Power head / hex head combination for limited height in line solutions
- Wide range of hex sizes available for all applications
- 360 degree movement of reaction arm with simple dial lock for rapid change
- For use topside and subsea

Compact

- · Designed to give optimum strength to weight and torque to weight ratios
- Minimum nose radius for trouble-free tool fit
