

HYDRAULIC NUT SPLITTER

Dimensions

Length(mm).....: 360
Equipment Weight - (kg).....: 16
Width(mm).....: 77
Height(mm).....: 77

Type

Description.....: Hydraulic Nut Splitter
Fabricator.....: SPX PowerTeam
Model.....: HNS150A

Content

Content.....: -1 ea. Hydraulic nut splitter AS-105
-1 ea. Hydraulic pump
-1 ea. hose

Quick and easy removal of seized and corroded nuts with compact hydraulic powered unit.

Flow / Pressure / Volume

P-max (bar).....: 700
Nut Size minimum (mm).....: 19.0
Nut Size max (mm).....: 38.0

Additional information

Equipment / Functions.....: Range of use :
- Nut Size: 1/2 – 1-1/2

HNS HYDRAULIC NUT SPLITTER

- “Dial-in” feature on HNS150 makes adjustment of splitter simple, without the worry of damaging the bolt
- Specially designed “tool steel” cutter blade penetrates the nut to the precise point where it cracks, stopping short of the bolt threads
- Nut splitter features a dramatically improved cutter blade with an 800% greater resistance to chipping and breaking over previous models
- All models feature a rugged one-piece cutting frame coupled to a heavy-duty hydraulic cylinder
- Compact size allows you to use it in confined areas where it will deliver enough force to split the toughest “fused” or rusted-on grade 2H nuts
- Simply split nut on one side, spin nut splitter 1/2 turn and make second cut on opposite side; nut separates into halves for easy removal
- Uses a standard 3/8" high flow coupler
