Equipment / Functions.....:

Climax's PM Series 3-axis portable milling machines provide precise and versatile on-the-job milling capabilities. They are designed to be attached either to the work piece or to a fabricated frame beside it. Downtime savings will pay for the machine in a short time.

- All gears and drives are permanently lubricated and sealed to allow operation in any position.
- Precision machined dovetail ways and adjustable gibbs provide smooth accurate travel

- The vertical adjusting screw is calibrated for accurate adjustments and has a locking nut for zeroing.
- Power is delivered by a triple gear reduction power head with in-line electronic speed control providing spindle speeds from 280 to 525 rpm.
- Spindle accepts standard 3/4" Weldon-type shank cutting tools. A 20 mm spindle is available for metric applications
